About Company

Ariashimi Company is located in Zahedan, the capital city of Sistan & Baluchestan Province. It is situated three kilometers from Zahedan International Airport & two kilometers from the National Railway Station, providing easy access via railway to Pakistan & Central Asian countries.

The company operates advanced & modern production lines & can produce all types of pesticides in various formulations (including WP, GR, SP, DS, SL, EC, SC, OD, EW, FS, WG, and DF). It also has a separate unit dedicated to the formulation of agricultural fertilizers. The factory is built on a 52,000 square meter land area with a built-up substructure of 10,500 square meters.

Ariashimi Company, producer of agricultural pesticides & fertilizers was established in Sistan & Baluchistan Province in 1994 & started its utilization in 1999. Presently, it is one of the most prominent companies in production & distribution of agricultural pesticides & fertilizers in Iran.

”

*We strive to provide our clients with the **best products** that meet their specific needs & ensure sustainable agriculture practices.*

Who We Are?

Ariashimi has 1600 distributors across the country. The distribution & sales department of the company provides products to customers at reasonable prices with on-time delivery in all provinces via its offices & agents, along with sales & technical experts. The annual production of this company exceeds 15000 tons, with more than 130 types of pesticides & 87 types of fertilizers.

Core Values of Ariashimi

Ariashimi Mission

Our mission at Ariashimi is to provide innovative, high-quality crop protection & soil nutrition solutions. We are committed to strengthening the nation's food security by sustainably increasing crop yields, fostering the success of Iranian farmers & operating in harmony with environmental preservation.

Ariashimi Vision

Our vision is to become the leading & most trusted scientific partner for modern agriculture in Iran. We aspire to make the Ariashimi name synonymous with sustainable, high-yield & responsible farming across the Middle East by pioneering smart, eco-compatible solutions.

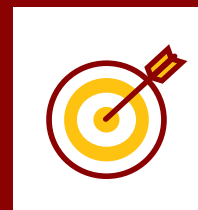

Ariashimi Goal

Meeting farmers needs with the latest pesticide & fertilizer products, while ensuring the shortest carence period.

Learning & Innovation

We believe the future of agriculture is rooted in knowledge. We foster a dynamic environment that encourages continuous learning & the courage to experiment with new ideas, ensuring we remain at the forefront of developing effective & eco-compatible solutions.

Achievement & Contribution

Our true success is measured by our positive impact on the food supply chain. We are committed to achieving the highest quality standards & creating tangible value for farmers, society & our nation's food security.

Teamwork & Sustainability

Our strength lies in collaboration and synergy. We work together to achieve common goals & in all our actions, we demonstrate a deep commitment to environmental, social & economic sustainability.

Respect & Integrity

Respect for stakeholders, nature & regulations is the foundation of all our interactions. We operate with honesty, transparency & ethical principles, always prioritizing unwavering integrity.

Customer Satisfaction

The Iranian farmer is at the heart of everything we do. By deeply understanding their challenges, we strive to deliver unparalleled solutions & support to guarantee their satisfaction & success, because their victory is our victory.

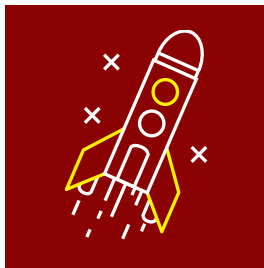

Strategic Objectives

Ariashimi Company is positioning itself as the pioneering leader in transforming Iran's agricultural sector through high-quality pesticides & fertilizers. By leveraging cutting-edge innovation, sustainable practices & strategic partnerships, the company aims to set new industry benchmarks, enhance farming productivity & contribute to food security in Iran. Ariashimi strives to become a symbol of reliability, technological advancement & environmental responsibility, empowering farmers & reshaping agricultural standards across the region.

Ariashimi: Your Partner in Sustainable Growth

We are deeply committed to exceeding your expectations, delivering innovative crop protection & advanced fertilizer solutions for a greener future.

Continuous Growth, Bright Vision

With a focus on strategic goals & long-term sustainability, Ariashimi strides toward greater successes every day.

A Dynamic Environment, a Bright Future

We believe in fostering a healthy, inspiring workplace where your personal development & career aspirations flourish.

Leadership Through Innovation

Ariashimi solidifies its market leadership with ongoing innovation & top-tier products, bringing you an even larger share of success.

BUSINESS GROWTH

- 1994** Company establishment
- 1999** Starting Business
- 2004** Transfer to the private sector
- 2005** Provincial development plan approved by the Ministry of Industries & Mines
- 2008** Provincial Top Entrepreneur Awarded by the Ministry of Labor & Social Affairs
- 2009** Provincial Exemplary Industrial Unit Awarded by the State Organization of Industries & Mines
- 2012** Selected Exporter from the Ministry of Industry, Mines & Trade
- 2013** National Specialized Industrial Cooperative
- 2013** Exemplary Exporter from the Ministry of Industry, Mines & Trade
- 2013** Provincial Certificate of Consumer Rights Compliance
- 2015** ISO 14001, ISO 9001
- 2018** ISO 45001
- 2023** Since 2023, seeds have been added to our products.
- 2023** Continuous export of products to Uzbekistan, Afghanistan & Tajikistan
- 2025** Obtaining Standard Certification for 18 Pesticides & Fertilizers, Including Potassium Sulfate, Ammonium Sulfate & Bostano

Our Work Process at Ariashimi

Ariashimi Company utilizes advanced technologies & international standards to produce agricultural pesticides & fertilizers with the highest quality & minimal environmental impact.

Production & distribution processes

Innovation-Driven R&D: Ariashimi diligently researches innovative global pesticide formulations while producing high quality fertilizers from domestic sources, consistently striving to address the concerns of our valued farmers.

Production & packaging:

Smart Packaging with advanced technology, Ariashimi's leak-proof secure solutions to maintain pesticide & fertilizer quality from production to application.

Farmer Empowerment:

Ariashimi Company holds periodic conferences & specialized training workshops, taking significant strides in enhancing the knowledge & skills of esteemed farmers.

Why Choose Us?

Ariashimi Company, with its comprehensive product portfolio (including pesticides, fertilizers, and seeds), up-to-date technical expertise, free specialized consultations for farmers, regular field visits, easy accessibility, premium product quality & an extensive distribution network, positions itself as an ideal partner for agricultural production needs.

PESTS

Some agricultural pests we fight with our products.

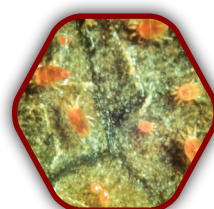

Planococcus vitis

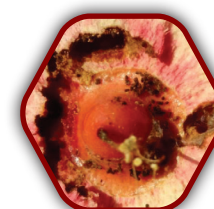

Drepanothrips reuteri

Meloidogyne spp.

Tenuipalpus punicae

Spectrobates ceratoniae

Aphis punicae

Lobesia botrana

Sesamia nonagrioides

Polyphylla olivieri

Caradrina exigua

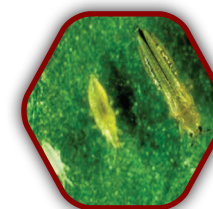

Heliothis virescens

Chilo suppressalis

Kermania pistaciella

Thrips tabaci

Heliothis armigera

Delia antiqua

Bemisia tabaci

Anarsia lineatella

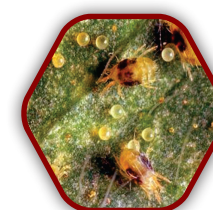

Agonoscena pistaciae

Tuta absoluta

Thrips tabaci

Tetranychus urticae

Aphis gossypii

Frankliniella occidentalis

Eurygaster integriceps

Psalmocharias alhageos

Helicoverpa armigera

Myzus persicae

Scrobipalpa ocellatella

Pseudococcus spp.

Rhynchites auratus

Zeuzera pyrina

PESTS

Lepidosaphes malicola

Leucoptera malifoliella

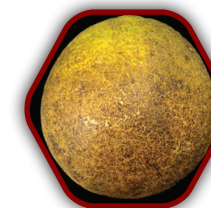

Ceratitis capitata

Rhagoletis cerasi

Lepidosaphes beckii

Phyllocoptruta oleivora

Rhynchophorus ferrugineus

Microcerotermes diversus

Sesamia cretica

Agrotis segetum

Rhizoglyphus robini

Rhizoglyphus robini

Hypera postica

Epicometis hirta

Hylesinus vestitus

Capnodis cariosa

Thrips tabaci

Euphyllura olivina

Bactrocera oleae

Agriotes lineatus

Megastigmus pistaciae

Agonoscena pistaciae

Earias insulana

Pegomya betae

Phthorimaea operculella

Leptinotarsa decemlineata

Phyllotreta spp.

Eriophyes tristriatus

Chaetocnema tibialis

Heliothis virescens

Agrotis segetum

Tetranychus urticae

DISEASES

Some agricultural pests we fight with our products.

Ustilago tritici

Puccinia striiformis

Plasmopara viticola

Erysiphe necator

Botrytis cinerea

Ustilaginoidea virens

Pyrenochaeta terrestris

Pectobacterium carotovorum
subsp. *carotovorum*

Colletotrichum spp.

Alternaria spp.

Pythium spp.

Phytophthora spp.

Botrytis allii

Phytophthora cactorum

Didymella rabiei

Bean Yellow Mosaic Virus

Beet necrotic yellow vein virus
(BNYVV)

Erwinia amylovora

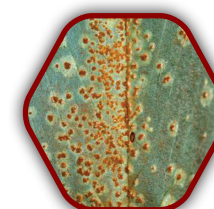

Ralstonia solanacearum

Fusarium spp.

Thanatephorus cucumeris

Uromyces viciae-fabae

Tolyposporium ehrenbergii

Burkholderia gladioli

Xylella fastidiosa

Grapevine Fan leaf virus

Potato virus Y

mosaic virus

Pseudomonas savastanoi

Macrophomina phaseolina

Soybean Mosaic Virus

Phoma lingam

TARGET CROPS

Many crops we target to eliminate the agricultural pests they infect. We also aim for more agricultural crops to make integrated programs to care for them & get the best possible results.

Pomegranate

Grape

Rice

Onion & garlic

Strawberries

Sugar beet

Cotton

Pistachio

Beans

Fruit Trees

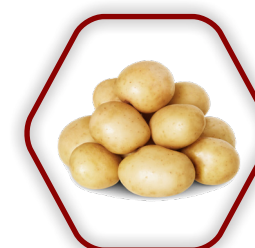

Corn

Saffron

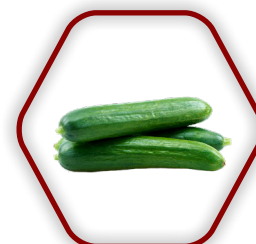

Soybean

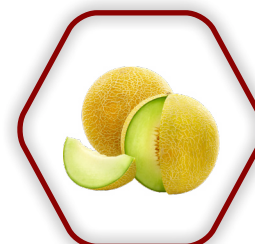

Potato

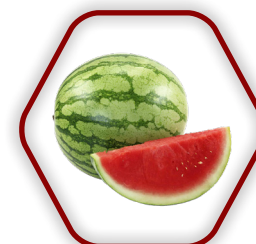

Wheat & barley

Cucumber

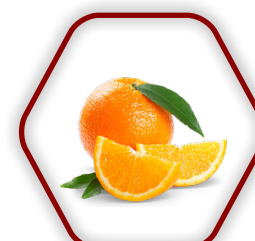

Melon

Watermelon

Tomato

Citrus

Olive

Kiwi

Walnut

Palm trees

Rapeseed

Alfalfa

Cabbage & Lettuce
